The Bible is Right!
By Bart Warren

The late brother Marshall Keeble (1878-1968) was well known and much loved for many reasons. His influence lives on even today (cf. Heb. 11:4). One phrase he uttered a countless number of times was, "The Bible is right!" It does not matter what some university professor says . . . the Bible is right. It does not matter what some scientist says . . . the Bible is right. It does not matter what some politician says. . .the Bible is right. I think you get the point.

It would serve us well to remember these words from brother Keeble today. With all the amazing discoveries being made . . . with all of the modern scientific and technological advances being revealed . . . let us remember that no discovery shall be made that will compromise, belittle, or change the authority and supremacy of the Word of God—the Bible.

Shall we fear discoveries like the Higg boson (the "God Particle")? On the contrary! We should embrace it and celebrate! Information such as this only strengthens the case for an Almighty Creator. It is further proof that this amazing world in which we live is intricately designed. And, as we all know, design demands a designer.

Enjoy once again this telling statement from the founding director of NASA's Goddard Institute for Space Studies, Robert Jastrow:
"for the scientist who has lived by his faith in the power of reason, the story ends like a bad dream. He has scaled the mountains of ignorance; he is about to conquer the highest peak; as he pulls himself over the final rock, he is greeted by a band of theologians who have been sitting there for centuries."
(from the book God and the Astronomers)

Whatever the discovery. . .whatever the situation. . .the Bible is right. Trust it. Live it. (2 Timothy 3:16-17)

"...The Churches of Christ salute you." Romans 16:16

We will have our fellowship meal today following our worship service. Everyone is invited to stay and enjoy a delicious meal.

.....

After our worship service but before the fellowship meal, we are asking all the members to join us outside in the back of the building to have a group picture made. Abi Garner is our photographer.

Chronological Study of the Life of Jesus
Bible study starts at 6:30 PM.**

**A Slow Death
Steve Higginbotham**

Take a leaf from a branch, and lay it down and watch. Slowly, the color fades and the leaf curls up and dies. Take a hot ember out of a fire and lay it down, and watch. Soon the red hot glow dims and the ember becomes cool to the touch and the fire dies. Take a fish out of water, and lay it down and watch. The fish will flip and flop, but soon it quits struggling and dies.

Take a Christian away from the assembly, and watch him. Soon he quits praying and it doesn't take long until he begins criticizing people who are attempting to live godly lives. Finally, he finds himself opposing Christianity and he dies.

Give it some thought. Via Mercemail
